

Our Sustainability Pledge

Sustainability is at the heart of The Coastal Kitchen Family. It shapes how we operate and is integrated into our values: family, hospitality, honesty, authenticity, and community.

As a family-run group of businesses, we care deeply about the communities we are part of and the people we serve. We believe that looking after the environment is crucial for an authentic hospitality experience – for our guests, neighbours, and future generations. Created by our Green Team, this pledge aims to inspire meaningful change, encourage responsible choices, and showcase our consideration for the environment.

What We're Focusing On

Energy Efficiency

We reduce energy usage by investing in efficient appliances and adopting thoughtful daily practices.

Waste Management

Guided by a simple approach – reduce, reuse, and recycle – we minimise all kinds of waste across our venues.

Sustainable Sourcing

Wherever possible, we choose local ingredients and producers that share our values.

Water Conservation

By installing water-saving fixtures, we conserve water and use it responsibly.

Community Engagement

We support a range of local community initiatives and openly share our sustainability journey.

Our Commitment

Through these actions we aim to:

- Reduce our carbon emissions as we work towards Net Zero
- Embed sustainability across all areas of our businesses
- Minimise food waste wherever possible
- Support and be part of a strong, sustainable local community
- Serve seasonal, honest food using local and environmentally responsible suppliers

Sustainability is an ongoing journey. By staying true to our values, we will continue learning, improving, and doing our part to care for the environment and the communities we are proud to be part of.
